Career Profile

BSc (Hons) in Computing Science from Griffith College Dublin with over 2 years Customer Service experience and Full Stack Web and Software Development skills currently seeking a role in Software Development.

Key Skills

Web Development – HTML, CSS, JavaScript, Bootstrap, React, Angular, Node.js, express.js, MySQL, MongoDB.

Software Development – Python, Java, C++, Qt, JUnit, Git, VSCode, REST API, MVC design architecture, algorithms, data structures, OOP.

Soft Skills – Communication, Customer Service, ability to work under pressure, problem solving.

Education History

2020 – Present	BSc (Hons) in Computing Science	Griffith College Dublin
----------------	---------------------------------	-------------------------

- ☐ Gained self learning skills, the skills of working in a team, and computer skills
- ☐ Learned Full Stack Web Development
- ☐ Good understanding of software development process (system analysis and design, git, unit testing, group collaboration)
- ☐ Working knowledge of SQL based databases, OOP, Data Structures, Distributed Systems, Networks, Numerical Optimisation, and GUI toolkits
- ☐ Ability to work with concurrency (multi-threading)

2009 – 2020	High Diploma	School No. 530, Saint-Petersburg
-------------	--------------	----------------------------------

- ☐ Received a rigorous and comprehensive education in mathematics, physics, and IT
- ☐ Strong foundation for pursuing a career in Computer Science
- ☐ Got a deep appreciation for problem-solving, critical thinking, and analytical reasoning, skills that have been invaluable in both my academic and professional pursuits

Career History

Mar 2022 – Dec 2023 Customer Service Representative Domino's Pizza

- ☐ Provided customers with quality assistance through phone calls and emails
- ☐ Built a strong working knowledge of the company procedures and protocols
- ☐ Developed a strong working knowledge of products and offerings.
- ☐ Developed the problem solving skills.

Feb 2020 – May 2020 Teacher School No. 530, Saint-Petersburg

- ☐ Provided optimal instruction and academic support to students
- ☐ Promoted critical thinking skills by implementing strengthening exercises where appropriate
- ☐ Created and implemented lesson plans based on students interests and curiosities
- ☐ Encouraged student engagement and meaningful class discussions

Projects

Visual Database Designer

- ☐ Built with Qt and C++.
- ☐ This desktop application allows users to draw database schemas and write SQL code. The application can generate corresponding SQL code from a database schema, and conversely, it can generate a database schema from SQL code. It features a code editor for writing SQL code and a diagram view for drawing database schemas.
- ☐ Learned about Qt, signal-slots programming, managing multiple windows, and application development.

Forums Website

- ☐ Built with Angular, Node.js, and MongoDB.
- ☐ Works like a forum website, users can ask questions and get answers to them. Users can also like and approve the answers. The website has authentication, users can edit they own questions and answers, see the list of all questions and the answers to them.
- ☐ Learned Angular, the MVC design architecture, managing data flow, and managing the user permissions.

Blog Website

- ☐ Built with HTML, CSS, Node.js, Express.js, ejs, MySQL.
- ☐ Users can post blogs with images and other users can read and comment them. Users can edit their own blogs and comments, or remove them. Admin users can remove all blogs, comments, and manage the user permissions.
- ☐ Learned about user authentication, sessions, and the server-side programming.
